FEATURES

A unique smooth finish on this fabric gives a modern high-end look to your project. This finish combined with special coatings ensures easy upkeep and cleanability so your canopy will look much better for much longer.

The stability and strength of **FTØ** Series provides total freedom of design. An award-winning textile loved by architects and designers globally.

It will protect you against heat, UV and wet weather for comfort all year round.

The rigorous pigment selection means every colour has high UV resistance and the exceptional longterm mechanical resistance of the yarns and coatings handle the most demanding structures.

- ✓ 100% Waterproof
- ✓ Complete UV block
- ✓ High strength fabric
- ✓ Stain, dirt and grime resistant
- ✓ Available in 11 standard colours
- ✓ High light transmission
- ✓ Fire resistant
- ✓ Eco-friendly - 100% recyclable

FTØ SERIES Architectural PVC is covered with a 10 - 5 year warranty.
